

**Amendments To The Drawings:**

The two (2) attached sheets of drawings include the deletion of Figure 7 from the sheet containing Figures 3 and 4 and also include the addition of new Figure 8. In other words, the first sheet, which includes Figures 3 and 4, replaces the original sheet including Figures 3, 4, and 7. In addition, the second sheet is new and contains Figures 7 and 8. Figure 8 illustrates the adjustment of the shock absorber shown in Figure 7 so as to move the structural surface outward.
